EUROPEAN CONGRESS OF PLASTICS ENGINEERING

The sectors of food, packaging, automotive, agrochemical, cosmetics, pharma, electronics or building industries have to deal every day with new challenges related to respect and global sustainability.

From ChemPlast we have the goal to present solutions for the industry challenges we all have to face, focusing on Sustainable Development Goals, new biodegradable and compostable materials or the implementation of more efficient and environmental-friendly technologies.

A commitment to innovation, an annual meeting for the entire industry and a starting point for a route plan that leads this new situation of the 4th Industrial Revolution.

CALL FOR SPEAKERS GOALS

ChemPlast Call for Speakers is looking for experts, professionals, companies, entrepreneurs, universities, research and development centers with the most innovative and disruptive ideas, initiatives, solutions or projects in the framework of Plastic Transformation Technologies.

All the speakers who identify themselves with these goals are invited to send their proposals for the European Congress of Plastics Engineering.
